Faculty of Engineering Vision

Faculty of Engineering is aiming to be a premier engineering institute in the Arab world and Africa via promoting creativity and embracing innovation in education and research services with International Standards to serve the Community to reach sustainable development plans.

Quality Assurance Unit Vision - Faculty of Engineering

The Quality Assurance Unit of the Faculty of Engineering looks forward to becoming one of the best corresponding units at the local, regional and African levels, and to be a leading center of excellence in the application of quality assurance education practices, to support and gain the confidence of the local, regional and African community at the graduate level, and research, service and community activities provided by the faculty.

Faculty of Engineering Mission

The Faculty of Engineering is committed to preparing engineering professionals capable of creativity and innovation by offering contemporary academic programs that enhance their knowledge and skills, in line with the needs of the local, regional, and international job markets. The programs aim to meet the needs of society and large-scale national projects, encourage scientific research, and apply quality standards in all academic and service activities.

Quality Assurance Unit Mission - Faculty of Engineering

The Quality Assurance Unit at the College of Engineering is committed to establishing a comprehensive and continuous internal system for institutional and educational evaluation that aligns with the college's vision and mission. This system ensures the ongoing development of all systems and tools supporting the educational process to graduate highly skilled and competent individuals capable of meeting the needs of large-scale national projects, while competing in the job market at the local, regional, and international levels.
